

Increase comfort and savings

*Stay warm with home heating
or insulation rebates.*

3 great reasons to update your home heating and insulation this season

1. Save up to \$1,100 with rebates.

Rebate	Measure
30% of costs \$500 maximum	Attic air sealing + qualifying attic insulation*
30% of costs \$500 maximum	Qualifying wall insulation*
30% of costs \$300 maximum	Attic air sealing only*
No rebate available	Attic insulation only*
\$100	Rim joist insulation**

* A Rebate Eligible Installer must do the work. (We suggest getting multiple bids).
 ** Must be completed in combination with a qualifying attic or wall insulation project. Not available as a stand alone rebate.

2. Make your home more comfortable.

With home heating and insulation updates, you can maintain a more consistent room temperature – especially during the coldest days of winter.

3. Use less energy and help the environment.

By updating your home's insulation to be more energy-efficient, you'll be able to use less energy overall – making a positive environmental impact.

Start saving today by calling an eligible installer!
